22

23

A.

Yes.

FDCPA training that EOS CCA does is there training

regarding contacting third parties to collect debts?

and risk management. I am also involved with

facilities and strategic planning and the debt

purchasing activities of the company.

20

21

- Q. Now that training, does that involve 1
- 2 manuals or seminars? How does that training exactly
- 3 take place?

8

- 4 MR. SCHWARTZ: Objection as to form.
- For a number of reasons. The first reason is are we 5
- talking about telephone calls or are we talking
- 7 about a letter sent to a debtor?
 - Q. This is general.
- 9 MR. SCHWARTZ: The point is are you
- asking for manuals with respect to telephone 10
- 11 communications or written communications because
- 12 there is obviously a big difference.
- 13 MR. GINSBURG: I was asking generally,
- 14 but since you raise that objection I should make it
- more specific to this case. 15
- Q. Is there training regarding letters sent to 16
- third parties? 17
- 18 A. Is there training -- excuse me. We don't
- 19 send letters to third parties.
- 20 Q. Is there training done in order to avoid
- 21 that?
- 22 A. There is training done for all aspects of
- our business, but there is not specific training on 23
 - what we should not do. We send letters to the
 - consumer. We don't send letters to third parties.
- 3 Q. And could you give a general description of
- 4 the training done to ensure that does not take
- place, if there is any?
- A. Well, our debt is owed by a specific 6
- consumer and correspondence would be directed to
- that consumer regarding that debt. So that's basic
- training. We do not, the only communication with
- the third party would be for location information. 10
- And that's not done by the mail. That's done by a 11
- phone call. 12
- 13 **Q.** And what type of training is done to the
- collectors? I mean are there seminars, guidebooks? 14
- 15 MR. SCHWARTZ: Objection as to form.
- You can answer if you can. 16
- 17 A. The collectors go through formal training
- when they're hired. They go through periodic 18
- training. They go through monitoring and audits on
- 20 phone calls. So the training starts from day 1.
- 21 It's an ongoing process as long as they're an
- 22 employee of the company. It's a combination of
- classroom. It's a combination of instructions from

trainers. It's manuals, any of those are all part

19

20

- 3 **Q.** And how long is the training when, for
- instance, if I were to start with EOS CCA as a debt
- 5 collector, how long would the training process be
- before I start making phone calls and sending
- 7 letters or writing letters, et cetera?
- A. You wouldn't write letters. Collectors
- 9 don't write letters, but the initial training in the
- 10 classroom is 3 days. Then they must pass a test
- 11 before they're deemed to be approved to go on the
- floor, and then they work with an existing
- experienced collector for a couple days to make sure 13
- 14 that they understood the classroom training and
- 15 practical experience. And then after possibly a
- week to 10 days they might be in their own category 16
- 17 with business while being monitored by the manager.
- 18 Q. Do the collectors get paid on commission
- 19 based on how much they collect from consumers?
- 20 A. The collectors for the most part are paid
- 21 on an hourly wage and they can earn commissions if 22
- they achieve certain thresholds in collection
- dollars. So they have the opportunity to earn a 23 18

bonus if they achieve a certain threshold.

- 2 Q. Now you said that the letters were not
- drafted by collectors. Who does draft the letters?
- 4 **A.** The letters are already drafted. There is
- no, nothing is created. Letters are already
- formatted, and when a consumer's account is assigned 6
- to us, then we initiate letter 1 to send to the
- consumer. So the letter is already formatted. We
- are just putting in the name of the consumer into a
- 10 pre-formatted electronic transmission and it's sent
- 11 out by the person that manages the letters. So the
- 12 collector doesn't send letters.
- 13 But you say that the letters were already
- drafted. Who is it, without revealing any trade 14
- 15 secret or anything, who is it who drafts this
- 16 letter?
- 17 **A.** The compliance department has the ultimate
- approval of the letter. Whether, we have numerous 18
- 19 letters. I can't say every letter was created by
- 20 compliance, but every letter is approved by
- 21 compliance. There is occasions when our operations
- 22 group will want to create a new letter based on a
- request from a client, but compliance has to approve
 - Page 17 Page 20

21

- 2 Q. And your clients, those are the third party
- creditors for which EOS CCA collects? 3

it before it can be put into the system.

- A. Yes. 4
- 5 Q. You said that you put in the name and
- 6 address of the consumers. How do you get these
- 7 names and how do you get these addresses?
- A. When the accounts are placed with us, from 8
- the client, they give us an electronic file which 9
- identifies that information. It's among the fields 10
- of information that they would supply to us. 11
- Q. Are there times where EOS CCA changes a 12
- 13 name or an address, for instance someone gets
- married or someone moves? 14
- A. Yes. The files are updated with any 15
- current information that would make the file 16
- 17 accurate.
- Q. And who is it that updates the files? 18
- A. That information is sometimes done 19
- automatically through the database information we 20
- 21 have, or if the information comes to a specific
- collector, that collector may make the update on the 22
- account. 23

22

23

- Q. And does EOS CCA use Lexis or any kind of
- skip tracing technology to locate consumers? 2
- A. Yes. 3
- Q. And they look up their address in doing so? 4 5
 - MR. SCHWARTZ: Objection as to form.
 - Q. Do they look up the address, do the
- 7 collectors who are making changes and locating
- consumers, do they search for the address when using
- the skip tracing technology? 9
- 10 A. I guess in some form. I don't quite
- understand your question. Ask that question again. 11
- Q. Sorry about that. What programs do 12
- 13 employees and representatives of EOS CCA use when
- 14 trying to locate a consumer's address?
- 15 A. The accounts are sent out to an outside
- vending source that would verify whether the address 16
- that is associated with the account is a valid 17
- address for the individual who is named as the 18
- account owner. 19
- Q. So it's not EOS CCA employees that look 20
- 21 into this whether the address is correct?
- 22 A. No. The employees, the skip tracing, the
- sending of letters, the validating of information is

done through an automated process. The collectors

23

24

- 2 are answering phone calls, making some phone calls,
- and doing that aspect of it. But as far as the skip
- tracing and the sending of letters, that information
- is done more as an automated process.
 - Q. Can you describe this automated process?
- 7 A. The information is sent to a database that
- would determine if there is no address associated
- with the account it might look up an address, try to
- identify an address or a phone number. It goes 10
- 11 through the databases that are available in order to
- 12 provide current and accurate information on the
- 13 consumer.
- 14 Q. Now are there live people associated with
- this automated database, or is it strictly 15
- computerized? 16
- 17 A. Well live people run the computers and they
- have to process the files. But the information is 18
- 19 sent out in an electronic format to the vendor who
- 20 updates the information, and the updated information
- populates the individual accounts. 21
- 22 Q. Are there people that verify the accuracy
 - of this information.
- A. We don't know the accuracy of it until, if 1
 - we're given a phone number or address, we don't know
 - until someone responds to that, either by telling us
 - 3
 - on a phone call that we have got a wrong number or
 - if we have a letter that is gone to a wrong address
 - someone calls us and says we're sending it to a
 - 7 wrong address. There is no way to verify before you
 - send it out. 8
 - Q. There is no way of verifying it before you
 - send it out? 10

- A. We have millions of accounts. We're not 11
- 12 sitting on phones trying to verify the information.
- 13 We are relying upon the databases that provide us
- with the current information. It's their job, 14
- that's what their company does. So we rely upon 15
- their information as a good information to follow up 16
- on the accounts until we find out otherwise. 17
- 18 Q. What company is this, this vendor that does 19 this?
- 20 A. There is different processes that are being
- 21 done. Which process in particular are you talking
- 22 about?
- 23 Q. The company that does the address location

- 1 and verification for consumers?
- 2 A. That's done through our mailing company.
- That Metro Media. I'm not sure of the exact name of
- 4 the company. But the letter vendor, when we provide
- 5 the file to them they run it through their database
- 6 to see if there has been a change of address or see
- 7 if the address is still valid through the U.S.
- 8 Postal Service database.
- 9 Q. And when someone calls to say that a phone
- 10 number or an address is incorrect, then it would be
- 11 an EOS CCA employee that would make that change?
- 12 A. That's correct.
- 13 Q. And you said that EOS CCA has millions of
- 14 accounts. Those accounts are all debt with some
- 15 form, correct?
- 16 A. Yes.
- 17 Q. So EOS CCA collects millions of debts per
- 18 year?
- 19 A. Collect as many as we can.
- Q. Attempts to collect millions of debts a
- 21 year?
- 22 A. Yes.
- 23 Q. Can you approximate how many accounts EOS

26

- 1 CCA has, again without revealing any trade secrets?
- 2 MR. SCHWARTZ: Objection to form.
- A. Active accounts.
- 4 MR. SCHWARTZ: Objection as to form. I
- 5 mean what time frame?
 - Q. In a year. I'm sorry. I was not specific.
- 7 A. Well, on an annual basis, the company may
- 8 receive 7 million in new accounts representing \$6.8
- 9 billion dollars in debt that is owed.
- 10 Q. And if unsuccessful in collecting, I guess
- 11 EOS CCA only owns about 5 percent of the debts,
- 12 correct?

6

19

- 13 A. Yes.
- 14 Q. And EOS CCA gets paid based on commission
- 15 for its clients?
- A. In some cases. There is other ways but
- 17 that's one way.
- 18 Q. What other ways are there?
 - A. We may get paid on a per account basis for
- 20 sending out a notice on behalf of a client. We
- 21 might provide staffing on site for a client project
- 22 where we get paid by the hour of the individual who
- 23 is providing the service. So there is different

1 types of arrangements that are made with each of the

- 2 clients.
- 3 Q. Now, you said that, to backtrack a little
- 4 bit, you said that you don't know if an account's
- 5 information regarding an address is incorrect unless
- 6 someone calls and says this. Does that mean that
- 7 there are no safeguards to assure that letters are
- 8 not sent out to the wrong address?
- 9 A. Well, the safeguard is we're using a vendor
- 10 who has validated address information through the
- 11 sources that are available to provide us with the
- 12 information. So that's our safeguard is that we're
- 13 not you're just sending the letters out blindly. We
- 14 are sending the letters out based on information
- 15 that has been provided by the client, or if that
- 16 information proves to be inaccurate information
- 17 provided by one of the companies that specializes in
- 18 providing accurate addresses on consumers.
- 19 Q. Now to go to this, are there also, I know
- 20 that you probably have multiple consumers or files
- 21 with the same name. What does EOS CCA do to assure
- 22 that accounts with the same, where the consumer has
- 23 a name that is the same as another consumer, what is

done to keep the respective files or accounts

- 2 unique? I know that was a long question.
- 3 A. I understand. For the most part when a
- 4 contact is made with the consumer, before
- 5 conversation is initiated relative to the debt, the
- 6 collector will verify that they have the right
- 7 consumer, usually by asking them if the last four
- 8 digits of their Social Security number is whatever
- 9 the number is, and then if they verify it and
- 10 indicate that yes, that is my Social, then they
- 11 assume they have the correct person.
- 12 Q. Now does EOS CCA have the entire Social
- 13 Security numbers of consumers or just the last four
- 14 digits?
- 15 A. Usually the entire number but not all
- 16 clients capture that information. So that can vary.
- 17 Q. But you almost always have the last four
- 18 digits, at least?
- 19 A. Yes. Most circumstances we have the whole
- 20 number.
- 21 Q. What do you do to assure that you have the
- 22 correct prefixes and suffixes, such as junior,
- 23 senior, et cetera?

28

29 31 A. We take the information that was provided **A.** Would you ask your question again, please? 2 Q. Sure. How does EOS CCA obtain AT&T by the consumer to the creditor in setting up the 2 account and assume that they provided accurate 3 Mobility accounts? A. There is an electronic transmission from information. 4 4 5 Q. But there are times where your client takes their office to our office which is in a file format 6 down the information, correctly? that identifies various characteristics of 7 A. I don't know that. You're speculating. I 7 information or various pieces of information don't know that for a fact. relative to the account so that we can initiate 8 9 Q. You don't know of any times where any of 9 collection activity. your clients have taken down information 10 Q. And in those situations does EOS CCA get 10 incorrectly? the name as it was provided, or do they get the name 11 11 A. I don't personally know of that, no. 12 from the client? 12 13 Q. To go to the specific obvious specific 13 A. Yes. The client supplies us with the account that is underlying the current FDCPA case, information at the time of the placement which would 14 14 you're familiar with the Gary Christy account? include the name as appears on the account set up by 15 15 16 A. Yes. 16 the consumer. 17 Q. And you are familiar with this June 14th, 17 Q. Does it also include the address? A. It includes, one of the fields is for an 2011, letter? 18 18 19 A. Yes. 19 address, yes. 20 Q. I am going to ask that this be marked EOS 20 **Q.** And what are some of the other fields? 21 CCA 1. 21 Social Security number, telephone number, 22 (Exhibit No. 1 22 general information of that type, when the account 23 Letter/Notice of Collection 23 was -- the last payment date on the account, the 30 32 Placement was marked for 1 service date, any information relative to the 1 Identification.) 2 account that would be of value for us in contacting 2 3 Q. This letter it's for the client AT&T 3 the individual. Mobility, correct? Q. And in this case or in these cases AT&T 4 4 5 A. Yes. 5 Mobility is still the creditor, correct? 6 Q. How did this account come to EOS CCA? 6 A. That's correct. 7 MR. SCHWARTZ: I am going to object at 7 Q. But these accounts are in default? this point. I am going to object because 1, the A. They place the account with us after the 8 8 9 plaintiff in this case is not the debtor. And as account has not been paid for a certain period of time. 10 far as if we start disclosing any information 10 MR. SCHWARTZ: Let me put an objection, relating to the debtor, that would become a 11 11 violation of the FDCPA. We don't have one at just put an objection as to form. I think the term 12 12 13 present. 13 default has got a number of different meanings. You 14 So if you want a general description of 14 can answer as to the best of your ability. how these AT&T Mobility accounts come to EOS CCA, 15 A. I don't know whether they deem them to be 15 that's fine. But if you're asking specific as to in default or whether they just deem them to be past 16 16 the debtor Gary Christy, then I am going to have to due. Default is more of a legal term. You have to 17 17 assert an objection and instruct my client not to ask them as to whether they consider them in 18 18 default. But the service has been in these cases 19 answer out of concern that they will violate 1692 C. 19 MR. GINSBURG: Understood. That's the service has been terminated and the bill had 20 20 21 fair. We are only asking for general information 21 gone unpaid for a period of time, and then it gets about how AT&T Mobility accounts such as this end up 22 assigned to us for the collection.

23

Q.

In the letter that has been marked as EOS 1

in the possession or as a client for EOS CCA.

- 1 do you see that it was addressed to Gary Christy at
- 2 30 East Butler Ave., in Ambler, Pennsylvania?
- A. Yes.
- 4 Q. Now without revealing any confidential
- 5 information pertaining to the debtor or consumer's
- 6 account, how did EOS CCA get this address?
- 7 A. The address was supplied by one of our skip
- 3 trace vendors that provided the address as a
- 9 potentially good address for the individual named.
- 10 Q. So was the original address incorrect or
- 11 presumed to be incorrect?
- 12 A. The original address that was associated
- 13 with the account was identified as not being a valid
- 14 address for the person of that name. Therefore, the
- 15 skip trace process identified a new address as being
- 16 a good address.
- 17 Q. And that was a skip trace, that skip trace
- 18 process that was done that was done in-house rather
- 19 than by a third party vendor?
- 20 A. No. It's done, most skip trace is done by
- 21 third-party vendors.
- 22 Q. And was that the same company, metro media?
- 23 A. No. That company provides the letters.

A. Well, the mailing house has all of the addresses throughout the United States, and when a

words what do you mean by matching up?

addresses throughout the difficed States, and when

35

36

- 4 name does not associate with an address, or the
- 5 address doesn't exist or we're given a partial
- 6 address or anything that would mean that the letter
- 7 was not going to be delivered, it would come back to
- 8 us as a file saying that there is either incomplete
- 9 information, inaccurate information, so that we
- 10 would not go to the expense of sending out a letter
- 11 at the cost of the letter to an address where it's
- 12 not going to get delivered or it's unlikely to get
- 13 delivered because it's incomplete or inaccurate or
- 14 doesn't associate with the name that has been
- 15 identified with the account. So any -- okay.
 - **Q.** All right. You can finish, Mr. Burns. I'm sorry.
- 18 A. I was going to say any time that the file
- 19 is incomplete and we can't send it out, it goes out
- 20 to be validated and verified through the LexisNexis
- 21 database.

16

17

23

5

- 22 Q. And the answer to the complaint filed by
 - Mr. Christy, which the answer was filed on October

34

- 1 The company that does the bulk of the skip trace
- 2 work for us is a company called LexisNexis.
 - Q. Now does EOS CCA have a LexisNexis account?
- 4 A. Yes.

3

- Q. So there are individuals working for EOS
- 6 CCA who enter this information into LexisNexis?
- 7 A. The information is done on an automated
- 8 basis. So it's not an individual saying I am going
- 9 to send this account over. They're sent over in
- 10 batches.
- 11 Q. So how is this address identified, the
- 12 original address that EOS has, how is that
- 13 identified as being incorrect?
- 14 A. I'm not certain. I can never tell from the
- 15 documents, other than when they do the address
- 16 verification prior to sending these notices out,
- 17 they will send back accounts that don't match up.
- 18 So I'm assuming that that was the case here,
- 19 although I can't be a hundred percent certain of
- 20 that. But I'm assuming that that is the case here
- 21 because that is usually what, usually what happened.
- 22 **Q.** What determines, you said it didn't match
- 23 up. What determines if it does match up in other

- 1 10th, 2011, I ask that that be marked EOS 2.
- 2 MR. GINSBURG: Answer filed by EOS, by
- 3 the way.
- 4 (Exhibit No. 2 Answer to
 - Plaintiff's Complaint with
- 6 Affirmative Defenses by
- 7 Defendant was marked for
- 8 Identification.)
- 9 Q. Now for Paragraphs 19, on Page 5 of the
- 10 Answer, the second sentence reads, "EOS CCA admits
- 11 and its records reflect that on or about June 14th,
- 12 2011, it addressed and sent a collection letter to
- 13 Gary Christy at an address provided by AT&T
- 14 Mobility." Now I read that correctly, didn't I?
 - A. Yes.
- 16 Q. That contradicts the statement that the
- 17 address was found by a LexisNexis search, doesn't
- 18 it?

- 19 MR. SCHWARTZ: I am going to object to
- 20 that because again you're asking a question about
- 21 letters and at that time we didn't have a copy of.
- 22 It was supposed to have been attached as an exhibit
- 23 as you can see the remaining response, and I don't

- 1 mean to testify, but I think that's being a little,
- 2 frankly I think it's a little disingenuous where you
- 3 are asking, we don't have an original copy of the
- 4 letter. We have templates. So asking us to define
- 5 the contents of the letter without providing it in
- 6 the complaint, I think the argument is if there was
- 7 a mistake it was made by counsel we can correct it,
- a mistake it was made by counsel we can confect it
- 8 but it's based on the fact we didn't have the
- 9 information because it wasn't provided by the
- 10 plaintiff.
- 11 **Q.** The answer says that its records reflect 12 that it was addressed and sent based on an address
- 13 provided by AT&T Mobility. What was the basis and
- 14 what records reflect that this address was provided
- 15 by AT&T Mobility?
- 16 **A.** The records that when the account was
- 17 placed with us, there was an address that was
- 18 provided with the account. And the process, when
- 19 the process gets started to send letters, it's based
- 20 upon the letter that is provided by AT&T Mobility.
- 21 If in the process of that letter being sent it's
- 22 determined that it is not going to arrive at the
- 23 right place or it's an incomplete address, then the
 - 3
- 1 data system, the skip tracing system is automated.
- 2 It then goes through the skip trace to get a good
- 3 address based on the preliminary information
- 4 provided by the client. So that it would be mailed
- 5 to a more likely location where the consumer is
- 6 located.
- 7 So the process is started with the
- 8 information provided by AT&T Mobility. It's just
- 9 when the end product goes out the door it may have
- 10 gone through different processes that update and
- 11 modify the information before it is actually sent
- 12 out the door.
- 13 **Q.** The statement that or the portion of the
- 14 statement which says on or about June 14, 2011, it
- 15 addressed and sent a collection letter to Gary
- 16 Christy at an address provided by AT&T Mobility.
- 17 That statement is incorrect, isn't it?
 - **A.** No. I think the letter process was started
- 19 and the address provided by AT&T Mobility was the
- 20 address that was utilized. What I'm saying,
- 21 letters, we might send a thousand letters to the
- 22 letter vendor, but they'll send a hundred back to us
- 23 saying that there is incomplete or inaccurate
- Page 37 Page 40

18

- 1 information. So we're not going to send these. So
- 2 you're not bearing the cost of that.
- 3 Then those automatically go to the
- 4 LexisNexis for address verification and update.
- 5 It's not some individual looking at the letter
- 6 saying, I will do this, cross this out and change
- 7 that. It's all done on an automated basis. When we
- 8 say we're sending a letter out based on the address
- 9 by Mobility that was the starting point. It's just
- 10 when the end product goes out the door at the mail
- 11 house it may have been modified because of new
- 12 information that would have corrected the
- 13 information that was with the account.
- 14 Q. But this particular address was not
- 15 provided by AT&T Mobility, correct?
 - A. That's correct.
- 17 Q. Do you have a copy of the skip trace that
- 18 was done for Mr. Christy's account?
 - A. No.
- 20 Q. For this letter that was sent?
- 21 A. No.

16

19

22

23

12

19

22

- Q. Would it be possible to obtain such a copy?
- A. I don't know if a copy exists. You say

40

- 1 copy. All this is done electronically. So I don't,
- 2 I'm not familiar enough with the process to tell you
- 3 that there is a copy of a document.
- 4 Q. This letter was sent to 30 East Butler Ave.
- 5 in Ambler, Pennsylvania. Do you have any idea, do
- 6 you know what 30 East Butler Avenue is?
- 7 **A.** Yes.
- 8 Q. And what is your understanding of what is
- 9 located at 30 East Butler Ave?
- A. Your law office.
- 11 Q. Which is Kimmel & Silverman?
 - A. Yes.
- 13 **Q.** And you understand that this is a business
- 14 address not a residential address?
- 15 **A.** I don't know that, but if you're saying
- that, I have no reason to not agree with that.
- 17 **Q.** Are you aware that Gary Christy has never 18 lived at this address?
 - A. I don't know.
- 20 **Q.** Do you have any idea why this address
- 21 showed up as an address in the Lexis search as a
 - possible address to which, at which to reach the
- 23 consumer?

- A. I don't know how it did. I mean I can give
- theories, but I don't know exactly how it came to be
- that that was the address.
- 4 Q. What would be something that you would
- 5 guess or theorize?

- A. In the database that LexisNexis utilizes,
- the Gary Christy name appears, and apparently there
- is a senior and a junior Gary Christy, and in trying
- to identify a location for one of those Gary
- Christies it may have used information for Gary 10
- Christy Senior and in some information that either
- 12 on his credit report or in any other source document
- 13 that is used by this search, his wife's name might
- 14 have been associated and she has a business address,
- 15 I can only speculate. I don't know the exact
- process by which they can identify all the 16
- 17 information they identify.
- 18 Q. Fine. Thank you. Would it be all right if
- 19 we took a five-minute break now?
- 20 A. Sure.
- 21 MR. SCHWARTZ: Sure.
- 22 (Recess)
- 23 MR. GINSBURG: Back on the record.

42

- MR. SCHWARTZ: During the break, this
- 2 is Andrew Schwartz, during the break I confirmed
- 3 with Mr. Burns that I didn't think he maybe
- understood a question completely regarding the
- public record information. And so the answer he
- gave you, he would like the opportunity to clarify
- 7 his response with respect to those records.
- Mr. Burns go ahead.
- A. The question was about the information from
- LexisNexis. And I think you asked something about 10
- did you have information showing the address. I
- 12 can't remember how it was exactly phrased, but I
- know I answered that we do not have the information
- 14 from LexisNexis, but I was referring to the time
- that we sent the letter out not subsequent to that
- as part of our research in this particular case. We 16
- did go to LexisNexis to get, to pull a printed copy
- 18 of information relative to the account which we
- don't do in the normal course of handling the
- 20 accounts. But if we go back on a research basis,
- our analyst pulled out the information to show and 21
- 22 see what the address was that they had provided. So
- we did pull that information but it was after the

time that, it was well after the complaint had been

43

44

- filed and the case had been settled. So when I was
- answering your question I was answering it relative
- to the time frame. But Andrew pointed out I should
- mention that we did eventually obtain that
- information sometime after the fact.
- 7 Q. Okay, Thank you, Now I am going to go
- over, I have a few more questions that shouldn't
- take much longer. I will jump around a lot, just
- 10 things that I didn't get in the first hour of the
- 11 deposition. So forgive me if I am confusing with
- 12 the questions as far as the order that they're
- 13 asked.
- 14 But going back to the June 14th, 2001
- 15 letter, you mentioned that some of your letters are
- 16 drafted by compliance. They're sent out by third
- 17 party vendors. Without disclosing confidential
- 18 information about this particular debtor, which
- 19 company or which entity was it that drafted this
- 20 letter?
- 21 A. This is a standard letter that our company
- 22 uses for, it's called the first letter is what we
- 23 characterize it as. The letters are drafted by us,
- reviewed by counsel. It's again compliance has to
- sign off. There is a process to have a letter to be 2
- 3 used.

8

9

- 4 **Q.** Was there a third party who mailed this
- letter out, or was it done within EOS CCA?
- 6 A. No. The mail providers send the letters
- out. We don't see them. We don't process them.
- - Q. Who is this mail processer?
 - A. Again I don't recall the exact name. I
- 10 thought it was Metro, something to be honest with
- you. I don't recall the exact name of the provider. 11
- I don't get involved in that part of the process. I
- 13 used to years ago, but I do not now. So I'm not
- familiar with the current vendor. 14
- 15 Q. But it is a third party company that mails
- out the letters? 16
- 17 A. Yes.
- 18 Q. Okay. Now was this debt, again without
- going into the confidential nature or information 19
- 20 about it, you mentioned that your debts are, the
- 21 debts owned by EOS CCA they are mostly personal and
- 22 mostly consumer in nature?

Now, in connection with the bona fide error 22 22 language that has to be provided in that initial questions that were asked of you, do you recall notice including the validation clause and the mini 23 those questions?

- 1 A. In general I do. Not specifically.
- 2 Q. Okay. First let me ask you a general
- 3 question. Does EOS CCA when they send out a letter
- 4 is there any intent to send it to a party that is
- 5 not a debtor?
- 6 A. No.
- 7 **Q.** So the intent of the letter is to get in
- 8 touch with the debtor who owes the debt obligation,
- 9 is that accurate?
- 10 A. Yes.
- 11 Q. Now you said that the address on the June
- 12 14th, 2011, letter sent to Gary Christy, that the
- 13 address 30 East Butler Avenue, Ambler, PA was not
- 14 the address that was provided by AT&T Mobility, is
- 15 that accurate?
- 16 **A.** Yes.
- 17 Q. And so as a result of a public record
- 18 search the address that is on this letter, the
- 19 address to which the letter was mailed to, is a
- 20 result of a public records search, is that accurate?
- 21 **A.** Well it's a result of the vendor that we
- 22 use LexisNexis. However, whatever they search, I
- 23 don't know their proprietary confidential processes
 - 62
 - as to where they collect their data, but they have
- 2 numerous databases from which they obtain
- 3 information. And if you're seeking an address or
- 4 phone number they will provide you with information
- 5 based on your database. So I don't know. You say
- 6 public record search. I'm not certain what that
- 7 means.
- 8 Q. I am sorry. So your definition. But are
- 9 aware of what they used to search, and I don't want
- 10 you to go through specifics but with respect to Gary
- 11 Christy are you aware of whether they simply plugged
- 12 in a name or did they use any other information, if
- 13 you're aware?
- 14 A. I'm not certain what they used. We send
- 15 the information that is in our file. So I don't
- 16 know what they used to determine the information
- 17 that they capture.
- 18 Q. Now, you know that maybe that because this
- 19 is not the address provided by the creditor that
- 20 there is a possibility that the address you're
- 21 sending this to might be incorrect. Do you
- 22 understand that?
- 23 A. Yes.

1 \mathbf{Q} . So just to make sure I understand. So your

63

64

- 2 procedure with respect to this letter, what do you
- 3 do to make sure that somebody else doesn't open the
- 4 letter improperly?
- 5 A. Once a new address is used which was not
- 6 the address provided by the creditor, the letter is
- 7 addressed, so it's marked confidential so that when
- 8 it's received at the address it would presumably be
- 9 passed on to the person who is the subject of the
- 10 account.
- 11 Q. Just quickly, obviously in the complaint
- 12 the plaintiff, again if you don't understand, you
- 13 don't recognize the statute let me know, but in the
- 14 complaint the plaintiff alleges violation of the
- 15 FDCPA. Are you aware of that?
- 16 **A.** Yes.
- 17 Q. And in particular they allege a violation
- 18 of 1692 C and in (B) of the FDCPA by communicating
- 19 with third parties in connection with the collection
- 20 of the debt. Sir, are you aware of any
- 21 communications by EOS CCA to a third party?
- 22 **A.** No

- Q. With respect to Gary Christy?
- A. No.
- Q. In your mind, just asking for your opinion,
- as an officer, as a person who does compliance, if a
- 4 third party such as Kimmel & Silverman open this
- 5 letter despite the fact it's not addressed to them.
- 5 Tetter despite the fact it's not addressed to them
- 6 can that amount to an unauthorized third-party
- 7 disclosure by EOS CCA?
 - A. I don't believe so.
 - Q. I believe you were asked earlier about
- 10 Better Business Bureau complaints, AG complaints and
- 11 legal complaints. Do you recall that?
 - A. Yes.
- 13 Q. I am going to ask you this: Are you aware
- 14 of any Better Business Bureau complaint, AG
- 15 complaint, or legal complaint where the consumer
- 16 complained that a third party, complained of a
- 17 third-party disclosure because another third party
- 18 opened a letter addressed to the consumer?
 - A. Yes.
- 20 Q. And do you recall that case in particular?
- 21 **A.** Yes. The case you're referring to is the
- 22 Watts case, WATTS.
 - Q. And was that a Better Business Bureau
